TS_032	Currencies	Validate the application's functionality across different currencies	3	P0

Test Case ID	Test Scenario	Test Case Title	prerequisites	Test Steps	Test Data	Expected Result (ER)	Priority	Actual Result	Result	Comment
TC_RF_001	(TS_001) Register Functionality	Validate registering an account by providing only the mandatory fields	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Register' option 3. Enter new account details into the mandatory fields (First Name, Last Name, E-mail, Password, and Privacy Policy Fields) 4. Click on 'Continue' button (ER-1) 5. Click on 'Continue' button that is displayed in the 'Account Success' page (ER-2)	Not Applicable	1. User should be logged in, taken to 'Account Success' page and proper details should be displayed on the page 2. User should be taken to 'Account' page and a confirm email should be sent to the registered email address	P0			
TC_RF_002	(TS_001) Register Functionality	Validate 'Thank you for registering' email is sent to the registered email address as a confirmation for registering the account	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Register' option 3. Enter new account details into the mandatory fields (First Name, Last Name, E-mail, Password, and Privacy Policy Fields) 4. Click on 'Continue' button 5. Check the email address used for registering the account (ER-1, ER-2, ER-3) 6. Click on the Login page link from the email body (ER-4)	Not Applicable	1. Validate a confirmation email for registering in the account is sent to the registered email address. 2. Validate the email subject, body and from address of the received email. 3. Validate there is a link to the login page provided in the email body 4. User should be taken to the Login page	P1			
TC_RF_003	(TS_001) Register Functionality	Validate registering an account by providing all the fields	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Register' option 3. Enter new account details into all the fields (First Name, Last Name, E-mail, Password, Newsletter and Privacy Policy Fields) 4. Click on 'Continue' button (ER-1) 5. Click on 'Continue' button that is displayed in the 'Account Success' page (ER-2)	Not Applicable	1. User should be logged in, taken to 'Account Success' page and proper details should be displayed on the page 2. User should be taken to 'Account' page	P1			
TC_RF_004	(TS_001) Register Functionality	Validate proper notification messages are displayed for the mandatory fields, when you do not provide any data in the fields in the 'Register Account' page and submit	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Register' option 3. Do not enter anything into the fields 4. Click on 'Continue' button (ER-1)	Not Applicable	1. The below warning messages should be displayed for the respective fields:  For First Name field, the warning message 'First Name must be between 1 and 32 characters!' should be displayed For Last Name field, the warning message 'Last Name must be between 1 and 32 characters!' should be displayed For E-mail field, the warning message 'E-mail Address does not appear to be valid!' should be displayed For Password field, the warning message 'Password must be between 6 and 40 characters!' should be displayed For Privacy Policy field, the warning message 'Warning: You must agree to the Privacy Policy!' should be displayed on the top	P2			
TC_RF_005	(TS_001) Register Functionality	Validate registering an account when Newsletter toggle is 'enabled'	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Register' option 3. Enter new account details into all the fields (First Name, Last Name, E-mail, Password, and Privacy Policy Fields) 4. Turn 'ON' the Newsletter toggle 5. Click on 'Continue' button (ER-1) 6. Click on 'Continue' button that is displayed in the 'Account Success' page (ER-2) 7. Click on 'Subscribe/unsubscribe to newsletter' option (ER-3)	Not Applicable	1. User should be logged in, taken to 'Account Success' page and proper details should be displayed on the page 2. User should be taken to 'Account' page 3. By default, the Newsletter subscription should be enabled in the Newsletter page	P2			
TC_RF_006	(TS_001) Register Functionality	Validate registering an account when Newsletter toggle is 'disabled'	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Register' option 3. Enter new account details into all the fields (First Name, Last Name, E-mail, Password, and Privacy Policy Fields) 4. Turn 'OFF' the Newsletter toggle 5. Click on 'Continue' button (ER-1) 6. Click on 'Continue' button that is displayed in the 'Account Success' page (ER-2) 7. Click on 'Subscribe/unsubscribe to newsletter' option (ER-3)	Not Applicable	1. User should be logged in, taken to 'Account Success' page and proper details should be displayed on the page 2. User should be taken to 'Account' page 3. By default, the Newsletter subscription should be disabled in the Newsletter page	P2			
TC_RF_007	(TS_001) Register Functionality	Validate different ways of navigating to 'Register Account' page	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Register' option (ER-1) 3. Click on 'My Account' dropdown menu 4. Click on 'Login' option 5. Click on 'Continue' button inside 'New Customer' box (ER-1) 6. Repeat steps 3 and 4 7. Click on 'Register' option from the Right Column options (ER-1)	Not Applicable	1. User should be taken to 'Register Account' page	P2			
TC_RF_008	(TS_001) Register Functionality	Validate registering an account by providing the existing account details (i.e. existing email address)	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Register' option 3. Enter existing account details into all the fields (First Name, Last Name, E-Mail, Password, Newsletter and Privacy Policy Fields) - <Refer Test Data> 4. Click on 'Continue' button (ER-1)	First Name: Vaishnavi Last Name: Ugavekar E-Mail: vaishnaviugavekar10@gmail.com Password - 123456	1. Account should not be created again, instead the warning message - 'Warning: E-Mail Address is already registered!' should be displayed	P2			
TC_RF_009	(TS_001) Register Functionality	Validate registering an account by providing an invalid email address into the E-Mail field	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Register' option 3. Enter new account details into all the fields (First Name, Last Name, Password, Newsletter and Privacy Policy Fields) 4. Enter invalid email address into the E-Mail field - <Refer Test Data> 5. Click on 'Continue' button (ER-1)	Try all below invalid email address formats: 1) vaishnavi 2) vaishnavi@ 3) vaishnavi@gmail 4) vaishnavi@gmail.	1. Account should not be created, instead a proper field level warning message or page level warning message to provide valid email address should be displayed	P2			

Test Case ID	Test Scenario	Test Case Title	prerequisites	Test Steps	Test Data	Expected Result (ER)	Priority	Actual Result	Result	Comment
TC_RF_010	(TS_001) Register Functionality	Validate all the fields in the Register Account page have the proper placeholders	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Register' option 3. View the First Name, Last Name, E-Mail, Password, fields for Placeholders (ER-1)	Not Applicable	1. Proper Placeholder texts should be displayed in the respective fields	P2			
TC_RF_011	(TS_001) Register Functionality	Validate all the mandatory fields in the Register Account page are marked with red color * symbol	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Register' option 3. Check the Fields - First Name, Last Name, E-Mail, Password, and Privacy Policy (ER-1)	Not Applicable	1. All the specified fields in the Test Steps should be marked with red color * symbol	P2			
TC_RF_012	(TS_001) Register Functionality	Validate whether the mandatory fields in the Register Account page are accepting only spaces	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Register' option 3. Enter spaces into the Mandatory Fields (First Name, Last Name, E-Mail and Password) 4. Click on 'Continue' button (ER-1)	Not Applicable	1. Warning message should be displayed for these Mandatory fields	P2			
TC_RF_013	(TS_001) Register Functionality	Validate whether the Password fields in the Register Account page are following Password Complexity Standards	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Register' option 3. Enter new account details into all the fields (First Name, Last Name, E-Mail, Newsletter and Privacy Policy Fields) 4. Check entering simple passwords (Not following Password Complexity Standards' i.e. Size of password as 8, password should contain atleast one number, symbol, lower case letter and upper case letters) - <Refer Test Data> 5. Click on 'Continue' button (ER-1)	123456	1. Warning message should be displayed for following Password Complexity Standards	P2			
TC_RF_014	(TS_001) Register Functionality	Validate whether the leading and trailing spaces entered into the Register Account fields are trimmed	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Register' option 3. Enter new account details into all the fields (First Name, Last Name, E-Mail, Password, Newsletter and Privacy Policy Fields) - by adding leading and trailing spaces to the applicable fields (First Name, Last Name, E-Mail, Password) 4. Click on 'Continue' button (ER-1)	Not Applicable	1. The leading and trailing spaces entered into these fields should automatically get trimmed on successful account creation	P2			
TC_RF_015	(TS_001) Register Functionality	Validate that the Privacy Policy option is disabled by default	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Register' option 3. Verify the Privacy Policy toggle option (ER-1)	Not Applicable	1. The Privacy Policy option is disabled by default	P2			
TC_RF_016	(TS_001) Register Functionality	Validate account registration without enabling the Privacy Policy option	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Register' option 3. Enter new account details into all the fields (First Name, Last Name, E-Mail, Password, and Newsletter Fields) 4. Do not enable the 'Privacy Policy' option 4. Click on 'Continue' button (ER-1)	Not Applicable	1. Warning message - 'Warning: You must agree to the Privacy Policy!' should be displayed	P2			
TC_RF_017	(TS_001) Register Functionality	Validate the password text entered into the 'Password' field of 'Register Account' functionality is toggled to hide its visibility	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Register' option 3. Enter Password text into the 'Password' field (ER-1)	Not Applicable	1.Password text entered into 'Password' field need to be toggled to hide its visibility (It should be hidden by displaying * or . Symbols)	P1			
TC_RF_018	(TS_001) Register Functionality	Validate navigating to other pages using the options or links provided on the 'Register Account' page	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Register' option 3. Try clicking on 'login page' link, 'Privacy Policy' link, 'Right Column' options, Menu options, Header and Footer options and any other options	Not Applicable	1. User should be navigated to the respective pages without any problems	P2			
TC_RF_019	(TS_001) Register Functionality	Validate the Breadcrumb, Page Heading, Page URL, Page Title of 'Register Account' Page	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Register' option (ER-1)	Not Applicable	1. Proper Breadcrumb, Page Heading, Page URL and Page Title should be displayed	P2			
TC_RF_020	(TS_001) Register Functionality	Validate the UI of the 'Register Account' page	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Register' option (ER-1)	Not Applicable	1. Proper and good UI should be displayed on the 'Register Account' page	P2			
TC_RF_021	(TS_001) Register Functionality	Validate 'Register Account' functionality in all the supported environments	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Register' option (ER-1)	Not Applicable	1.'Register Account' functionality should work in all the supported environments	P2			

Test Case ID	Test Scenario	Test Case Title	prerequisites	Test Steps	Test Data	Expected Result (ER)	Priority	Actual Result	Result	Comment
TC_LF_001	(TS_002) Login Functionality	Validate logging into the application using valid credentials	1. Open the application URL in any supported browser 2. Login credentials for an existing account are required	1. Click on 'My Account' dropdown menu 2. Click on 'Login' option (ER-1) 3. Enter valid email address into the 'E-Mail Address' field - <Refer Test Data> 4. Enter valid password into the 'Password' field - <Refer Test Data> 5. Click on 'Login' button (ER-2)	Email Address - vaishnavigavekar10@gmail.com  Password - 123456	1. User should be navigated to Login page 2. User should get logged in and taken to the 'Account' page	P0			
TC_LF_002	(TS_002) Login Functionality	Validate logging into the application using invalid credentials (i.e. invalid email address and invalid password)	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Login' option 3. Enter invalid email address into the 'E-Mail Address' field - <Refer Test Data> 4. Enter invalid password into the 'Password' field - <Refer Test Data> 5. Click on 'Login' button (ER-1)	Email Address - xyzabc123@gmail.com  Password - xyzabc123	1. Warning message with the text 'Warning: No match for E-Mail Address and/or Password.' should be displayed	P1			
TC_LF_003	(TS_002) Login Functionality	Validate logging into the application using invalid email address and valid password	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Login' option 3. Enter invalid email address into the 'E-Mail Address' field - <Refer Test Data> 4. Enter valid password into the 'Password' field - <Refer Test Data> 5. Click on 'Login' button (ER-1)	Email Address - xyzabc123@gmail.com  Password - 123456	1. Warning message with the text 'Warning: No match for E-Mail Address and/or Password.' should be displayed	P1			
TC_LF_004	(TS_002) Login Functionality	Validate logging into the application using valid email address and invalid password	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Login' option 3. Enter valid email address into the 'E-Mail Address' field - <Refer Test Data> 4. Enter invalid password into the 'Password' field - <Refer Test Data> 5. Click on 'Login' button (ER-1)	Email Address - vaishnavigavekar10@gmail.com  Password - xyzabc123	1. Warning message with the text 'Warning: No match for E-Mail Address and/or Password.' should be displayed	P1			
TC_LF_005	(TS_002) Login Functionality	Validate logging into the application without providing any credentials	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Login' option 3. Do not enter anything into the 'E-Mail Address' field 4. Do not enter anything into the 'Password' field 5. Click on 'Login' button (ER-1)	Not Applicable	1. Warning message with the text 'Warning: No match for E-Mail Address and/or Password.' should be displayed	P1			
TC_LF_006	(TS_002) Login Functionality	Validate 'Forgotten Password' link is available in the Login page and is working	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Login' option (ER-1) 3. Click on 'Forgotten Password' link (ER-2)	Not Applicable	1. User should be taken to 'Login' page and 'Forgotten Password' link should be displayed in the page 2. User should be taken to 'Forgotten Password' page	P2			
TC_LF_007	(TS_002) Login Functionality	Validate E-Mail Address and Password text fields in the Login page have the place holder text	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Login' option (ER-1)	Not Applicable	1. Proper place holder text should be displayed inside the 'E-Mail Address' and 'Password' text fields	P2			
TC_LF_008	(TS_002) Login Functionality	Validate Logging into the application and browsing back using browser back button	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Login' option 3. Enter valid email address into the 'E-Mail Address' field - <Refer Test Data> 4. Enter valid password into the 'Password' field - <Refer Test Data> 5. Click on 'Login' button 6. Click on Browser back button (ER-1)	Email Address - vaishnavigavekar10@gmail.com  Password - 123456	1. User should not logged out	P2			
TC_LF_009	(TS_002) Login Functionality	Validate Logging out from the application and browsing back using browser back button	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Login' option 3. Enter valid email address into the 'E-Mail Address' field - <Refer Test Data> 4. Enter valid password into the 'Password' field - <Refer Test Data> 5. Click on 'Login' button 6. Click on 'My Account' dropdown menu and select 'Logout' option 7. Click on Browser back button (ER-1)	Email Address - vaishnavigavekar10@gmail.com  Password - 123456	1. User should not get logged in again	P1			
TC_LF_010	(TS_002) Login Functionality	Validate logging into the application using inactive credentials	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Login' option 3. Enter valid email address of an inactive account into the 'E-Mail Address' field - <Refer Test Data> 4. Enter valid password of an inactive account into the 'Password' field - <Refer Test Data> 5. Click on 'Login' button (ER-1)	Test Data for this is pending	1. User should not be able to login	P2			
TC_LF_011	(TS_002) Login Functionality	Validate unsuccessful login attempts with unregistered email address	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Login' option 3. Enter unregistered email address into the 'E-Mail Address' field - <Refer Test Data> 4. Enter wrong password into the 'Password' field - <Refer Test Data> 5. Click on 'Login' button 6. Repeat Step 5 for 5 more times (ER-1)	Email Address - xyzabc123@gmail.com  Password - xyzabc123	1. The warning message, 'Warning: Your account has exceeded the allowed number of login attempts. Please try again in 1 hour,' should be displayed on the 6th click of the 'Login' button when using the same unregistered email address.	P1			

Test Case ID	Test Scenario	Test Case Title	prerequisites	Test Steps	Test Data	Expected Result (ER)	Priority	Actual Result	Result	Comment
TC_LF_012	(TS_002) Login Functionality	Validate unsuccessful login attempts with registered email and same wrong password	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Login' option 3. Enter a registered email address into the 'E-Mail Address' field – <Refer Test Data> 4. Enter the same wrong password into the 'Password' field – <Refer Test Data> 5. Click on the 'Login' button 6. Repeat Step 5 for 5 more times (ER-1)	Email Address - smitakadam@gmail.com Password 1 - xyzabc123	1. The warning message, 'Warning: Your account has exceeded the allowed number of login attempts. Please try again in 1 hour,' should be displayed on the 6th click of the 'Login' button when using a registered email and the same wrong password.	P1			
TC_LF_013	(TS_002) Login Functionality	Validate unsuccessful login attempts with registered email and different wrong passwords	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Login' option 3. Enter a registered email address into the 'E-Mail Address' field – <Refer Test Data> 4. Enter a different wrong password each time into the 'Password' field – <Refer Test Data> 5. Click on the 'Login' button 6. Repeat Steps 4 and 5 for 5 more times (ER-1)	Email Address - vaishnavigavekar10@gmail.com  Password 1 - xyzabc123 Password 2 - abxyz456 Password 3 - lmnopq789 Password 4 - rstuvw321 Password 5 - defghi987 Password 6 - hijklm654	1. The warning message, 'Warning: Your account has exceeded the allowed number of login attempts. Please try again in 1 hour,' should be displayed on the 6th click of the 'Login' button when using a registered email with a different wrong password each time.	P1			
TC_LF_014	(TS_002) Login Functionality	Validate the text into the Password field is toggled to hide its visibility	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Login' option 3. Enter any text into the 'Password' field (ER-1)	Not Applicable	1. Text entered into the Password field should be toggled to hide its visibility (i.e. Instead of entered characters getting displayed, the Password field should show either * or . Symbols)	P1			
TC_LF_015	(TS_002) Login Functionality	Validate the copying of the text entered into the Password field	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Login' option 3. Enter any text into the 'Password' field 4. Select the text entered into the 'Password' field, right click to select 'Copy' option (ER-1) 5. Select the text entered into the 'Password' field and press (Ctrl+C) shortcut for copying (ER-2)	Not Applicable	1. Copy option in the right click menu should be disabled 2. Password text should not be copied	P1			
TC_LF_016	(TS_002) Login Functionality	Validate the password is not visible in the Page Source	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Login' option 3. Enter any text into the 'Password' field 4. Inspect the Password text field (ER-1) 5. Click on 'Login' button and inspect the Password text field (ER-1)	Not Applicable	1. Password text should not be visible in the Page Source	P1			
TC_LF_017	(TS_002) Login Functionality	Validate Logging into the application after changing the password	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Login' option 3. Enter valid email address into the 'E-Mail Address' field - <Refer Test Data> 4. Enter valid password into the 'Password' field - <Refer Test Data> 5. Click on 'Login' button 6. Click on 'Change your password' link 7. Enter new password into the 'Password' and 'Password Confirm' fields 8. Click on 'Continue' button 9. Click on 'My Account' dropdown menu and select 'Logout' option 10. Repeat steps 1 to 5 (ER-1) 11. Enter new credentials given in Step 7 and click on 'Login' button (ER-2)	Email Address - vaishnavigavekar10@gmail.com  Password - 123456	1. User should be not allowed to login 2. User should be able to login	P1			
TC_LF_018	(TS_002) Login Functionality	Validate Logging into the application, closing the browser without logging out and opening the application in the Browser again	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Login' option 3. Enter valid email address into the 'E-Mail Address' field - <Refer Test Data> 4. Enter valid password into the 'Password' field - <Refer Test Data> 5. Click on 'Login' button 6. Close the Browser 7. Open the Browser and open the Application URL (ER-1)	Email Address - vaishnavigavekar10@gmail.com  Password - 123456	1. Logged in session should be still maintained and user should not get logged out	P2			
TC_LF_019	(TS_002) Login Functionality	Validate timeout of the Login Session	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Login' option 3. Enter valid email address into the 'E-Mail Address' field - <Refer Test Data> 4. Enter valid password into the 'Password' field - <Refer Test Data> 5. Click on 'Login' button 6. Wait for more than 30 minutes without performing anything on the application 7. Perform any action on the application	Email Address - vaishnavigavekar10@gmail.com  Password - 123456	1. User should get automatically logged out with a proper message stating your session got expired.	P2			

Test Case ID	Test Scenario	Test Case Title	prerequisites	Test Steps	Test Data	Expected Result (ER)	Priority	Actual Result	Result	Comment
TC_LF_020	(TS_002) Login Functionality	Validate user is able to navigate to different pages from Login page	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Login' option 3. Click on 'Continue' button under 'New Customer' section (ER-1) 4. Navigate back to Login page and click on different options like (Right Column options, Header options, Menu Options, Footer options and any other options) (ER-2)	Not Applicable	1. User should be navigated to 'Register Account' page 2. User should be navigated to the Appropriate pages	P2			
TC_LF_021	(TS_002) Login Functionality	Validate the different ways of navigating to the Login page	1. Open the application URL in any supported browser	Validate all the below ways of navigating to the Login page: Way 1 - Click on 'Login page' link in the 'Register Account' page (ER-1) Way 2 - Click on 'Login' option from the 'Right Column' options (ER-1) Way 3 - Select 'Login' option from the 'My Account' dropdown menu (ER-1)	Not Applicable	1. User should be navigated to 'Login' page	P2			
TC_LF_022	(TS_002) Login Functionality	Validate the Breadcrumb, Page Heading, Page Title and Page URL of Login page	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Login' option (ER-1)	Not Applicable	1. Proper Breadcrumb, Page Heading, Page URL and Page Title should be displayed	P2			
TC_LF_023	(TS_002) Login Functionality	Validate the UI of the Login page	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Login' option (ER-1)	Not Applicable	1. Login page UI should adhere to the UI checklist	P2			
TC_LF_024	(TS_002) Login Functionality	Validate the Login page functionality in all the supported environments	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Click on 'Login' option (ER-1)	Not Applicable	1. Login functionality should work correctly in all the supported environments	P2			

Test Case ID	Test Scenario	Test Case Title	prerequisites	Test Steps	Test Data	Expected Result (ER)	Priority	Actual Result	Result	Comment
TC_LG_001	(TS_003) Logout Functionality	Validate Logging out by selecting Logout option from 'My Account' dropdown menu	1. Open the application URL in any supported browser 2. User is logged in	1. Click on 'My Account' dropdown menu 2. Select 'Logout' option (ER-1) 3. Click on 'Continue' button (ER-2)	Not Applicable	1. User should be taken to the 'Account Logout' page and user should see Login option in place of Logout under the 'My Account' dropdown menu 2. User should be taken to the Home page	P0			
TC_LG_002	(TS_003) Logout Functionality	Validate Logging out by selecting Logout option from 'Right Column' options	1. Open the application URL in any supported browser 2. User is logged in and is on 'Account' page	1. Click on 'Logout' option from the Right Column (ER-1) 2. Click on 'Continue' button (ER-2)	Not Applicable	1. User should be taken to the 'Account Logout' page and user should see Login option in place of Logout under the 'My Account' dropdown menu 2. User should be taken to the Home page	P2			
TC_LG_003	(TS_003) Logout Functionality	Validate the application session status, after logging and closing the Browser without logging out	1. Open the application URL in any supported browser 2. User is logged in	1. Close the browser without Logging out 2. Open the browser and navigate the application (ER-1)	Not Applicable	1. Application should not get logged out, instead the user logged in session need to be maintained	P2			
TC_LG_004	(TS_003) Logout Functionality	Validate logging out and browsing back	1. Open the application URL in any supported browser 2. User is logged in	1. Click on 'My Account' dropdown menu 2. Select 'Logout' option 3. Click on browser back button (ER-1)	Not Applicable	1. User should not get logged in	P1			
TC_LG_005	(TS_003) Logout Functionality	Validate Logout option is not displayed under 'My Account' menu before logging in	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu (ER-1)	Not Applicable	1. Log out option should not be displayed under 'My Account' dropdown menu	P2			
TC_LG_006	(TS_003) Logout Functionality	Validate Logout option is not displayed under 'Right Column' options before logging in	1. Open the application URL in any supported browser	1. Click on 'My Account' dropdown menu 2. Select 'Register' option (ER-1)	Not Applicable	1. Logout option should not be displayed in the 'Right Column'	P2			
TC_LG_007	(TS_003) Logout Functionality	Validate Logout from an account from a single place after logging into it from different places	1. Open the application URL in any supported browser 2. User is logged in Firefox browser of your laptop 3. User is logged in with the same account of step 2 in Chrome browser of your Mobile device	1. Click on 'My Account' dropdown menu in Firefox browser 2. Select 'Logout' option 3. Perform any operation which requires the user to log, say navigating to Address Book page in the Chrome browser of Mobile device (ER-1)	Not Applicable	1. User be logged out in Mobile device too, instead of getting navigated to the Address Book page	P2			
TC_LG_008	(TS_003) Logout Functionality	Validate logging out and logging in immediately after logout	1. Open the application URL in any supported browser 2. User is logged in	1. Click on 'My Account' dropdown menu 2. Select 'Logout' option 3. Login immediately again with same or different account (ER-1)	Not Applicable	1. Same account or different account should get logged in	P2			
TC_LG_009	(TS_003) Logout Functionality	Validate 'Account Logout' page	1. Open the application URL in any supported browser 2. User is logged in	1. Click on 'My Account' dropdown menu 2. Select 'Logout' option 3. Check the Page Heading, Page Title, Page URL and Breadcrumb of the displayed 'Account Logout' page (ER-1)	Not Applicable	1. Proper Page Heading, Page Title, Page URL and Breadcrumb should be displayed for 'Account Logout' page	P2			
TC_LG_010	(TS_003) Logout Functionality	Validate the UI of the Logout option and the 'Account Logout' page	1. Open the application URL in any supported browser 2. User is logged in	1. Click on 'My Account' dropdown menu 2. Select 'Logout' option (ER-1)	Not Applicable	1. Proper UI adhering to the UI checklist should be displayed for Logout option (My Account dropdown menu and Right Column) and 'Account Logout' page	P2			
TC_LG_011	(TS_003) Logout Functionality	Validate the Logout functionality in all the supported environments	1. Open the application URL in any supported browser 2. User is logged in	1. Click on 'My Account' dropdown menu 2. Select 'Logout' option (ER-1)	Not Applicable	1. Logout functionality should work correctly in all the supported environments	P2			

Test Case ID	Test Scenario	Test Case Title	prerequisites	Test Steps	Test Data	Expected Result (ER)	Priority	Actual Result	Result	Comment
TC_FP_001	(TS_004) Forgot Password	Validate user is able to reset the password	1. Open the application URL and navigate to Login Page 2. An existing account is required	1. Click on 'Forgotten Password' link from Login page (ER-1) 2. Enter the email address of an existing account for which you have forgot the password 3. Click on 'Continue' button (ER-2) 4. Check the registered email address for which the password got reset (ER-3) 5. Click on the link for resetting the password from the received email body (ER-4) 6. Enter new password into the 'Password' and 'Confirm' fields 7. Click on 'Continue' button (ER-5) 8. Enter the email address into the E-Mail address field and the new reseted password into the 'Password' field 9. Click on 'Login' button (ER-6)	Not Applicable	1. User should be taken to 'Forgotten Password' page 2. Success message with text - 'An email with a confirmation link has been sent your email address.' should be displayed in green color 3. Validate that an email is received regarding resetting of the password to the registered email address 4. User should be taken 'Reset your Password' page 5. Success message with text - 'Success: Your password has been successfully updated.' should be displayed in green color and User should be navigated to 'Login' page 6. User should be able to login with the new password	P0			
TC_FP_002	(TS_004) Forgot Password	Validate an email is sent with the proper details on resetting the password	1. Open the application URL and navigate to Login Page 2. An existing account is required	1. Click on 'Forgotten Password' link from Login page 2. Enter the email address of an existing account for which you have forgot the password 3. Click on 'Continue' button 4. Check the registered email address for which the password got reset (ER-1 and ER-2)	Not Applicable	1. An email should be received by the registered email address with the details of resetting the password. 2. Email should contain proper Subject, Body, from address and the link for resetting the password	P1			
TC_FP_003	(TS_004) Forgot Password	Validate logging into the application with the old password after resetting it	1. Open the application URL and navigate to Login Page 2. An existing account is required	1. Click on 'Forgotten Password' link from Login page 2. Enter the email address of an existing account for which you have forgot the password 3. Click on 'Continue' button 4. Check the registered email address for which the password got reset 5. Click on the link for resetting the password from the received email body 6. Enter new password into the 'Password' and 'Confirm' fields 7. Click on 'Continue' button 8. Enter the email address into the E-Mail address field and the old password into the 'Password' field 9. Click on 'Login' button (ER-1)	Not Applicable	1. User should not be able to login with old password	P1			
TC_FP_004	(TS_004) Forgot Password	Validate logging into the application with the old password when you have initiated the resetting password process and have not reset the password	1. Open the application URL and navigate to Login Page 2. An existing account is required	1. Click on 'Forgotten Password' link from Login page 2. Enter the email address of an existing account for which you have forgot the password 3. Click on 'Continue' button 4. Enter registered email address into the 'E-mail Address' field 5. Enter old password into the 'Password' field 6. Click on 'Login' button	Not Applicable	1. User should be able to login	P2			
TC_FP_005	(TS_004) Forgot Password	Validate resetting the password for a non-registered account	1. Open the application URL and navigate to Login Page	1. Click on 'Forgotten Password' link from Login page 2. Enter an email address for which the account doesn't exist in the application 3. Click on 'Continue' button	Not Applicable	1. A page level warning message with text - 'Warning: The E-mail Address was not found in our records!' should be displayed	P2			
TC_FP_006	(TS_004) Forgot Password	Validate how many times the user is able to reset the password using the reset link sent over email	1. Open the application URL and navigate to Login Page	1. Click on 'Forgotten Password' link from Login page 2. Enter the email address of an existing account for which you have forgot the password 3. Click on 'Continue' button 4. Check the registered email address for which the password got reset 5. Click on the link for resetting the password from the received email body 6. Enter new password into the 'Password' and 'Confirm' fields 7. Click on 'Continue' button 8. Repeat steps 5 to 7 for 2 to 3 times (ER-1)	Not Applicable	1. User should be allowed to use the link sent in the email for resetting the password only once	P1			
TC_FP_007	(TS_004) Forgot Password	Validate the user has given the same password into the 'Password' and 'Confirm' fields of the 'Reset your Password' page	1. Open the application URL and navigate to Login Page 2. An existing account is required	1. Click on 'Forgotten Password' link from Login page 2. Enter the email address of an existing account 3. Click on 'Continue' button 4. Check the registered email address for which the password got reset 5. Click on the link for resetting the password from the received email body 6. Enter a password into the 'Password' field 7. Enter a different password into the 'Confirm' fields 8. Click on 'Continue' button (ER-1)	Not Applicable	1. A field level warning message with text - 'Password and password confirmation do not match!' should be displayed under 'confirm' field	P2			
TC_FP_008	(TS_004) Forgot Password	Validate the placeholders are displayed in the 'Password' and 'Confirm' fields of 'Reset your password' page	1. An existing account is required 2. reset password email is sent to the registered email address	1. Click on the reset password link available in the email 2. Check 'Password' and 'Confirm' fields in the 'Reset your Password' page (ER-1)	Not Applicable	1. Proper placeholder texts are displayed inside the 'Password' and 'Confirm' fields of the 'Reset your Password' page	P2			
TC_FP_009	(TS_004) Forgot Password	Validate resetting the password without giving the new password in the 'Password' and 'Confirm' fields of 'Reset your Password' page	1. An existing account is required 2. reset password email is sent to the registered email address	1. Click on the reset password link available in the email 2. Don't enter any password into the 'Password' and 'Confirm' fields of the 'Reset your Password' page 3. Click on 'Continue' button (ER-1)	Not Applicable	1. Field level warning message with text - 'Password must be between 6 and 40 characters!' should be displayed for 'Password' field	P2			
TC_FP_010	(TS_004) Forgot Password	Validate clicking 'Back' button on the 'Reset your Password' page	1. An existing account is required 2. reset password email is sent to the registered email address	1. Click on the reset password link available in the email 2. Click on 'Back' button on the 'Reset your Password' page (ER-1)	Not Applicable	1. User should be navigated to 'Login' page	P2			
TC_FP_011	(TS_004) Forgot Password	Validate 'Right Column' options are displayed in the 'Reset your Password' page	1. An existing account is required 2. reset password email is sent to the registered email address	1. Click on the reset password link available in the email 2. Check for 'Right Column' options (ER-1)	Not Applicable	1. 'Right Column' options should be displayed in the 'Reset your Password' page	P2			

Test Case ID	Test Scenario	Test Case Title	prerequisites	Test Steps	Test Data	Expected Result (ER)	Priority	Actual Result	Result	Comment
TC_FP_012	(TS_004) Forgot Password	Validate the Breadcrumb of the 'Reset your Password' page	1. An existing account is required 2. reset password email is sent to the registered email address	1. Click on the reset password link available in the email 2. Check the Breadcrumb (ER-1)	Not Applicable	1. A proper working Breadcrumb should be displayed on the 'Reset your Password' page	P2			
TC_FP_013	(TS_004) Forgot Password	Validate Page Heading, Page URL and Page Title of the 'Reset your Password' page	1. An existing account is required 2. reset password email is sent to the registered email address	1. Click on the reset password link available in the email 2. Check the Page Heading, Page URL and Page Title (ER-1)	Not Applicable	1. A proper Page Heading, Page URL and Page Title should be displayed for 'Reset your Password' page	P2			
TC_FP_014	(TS_004) Forgot Password	Validate the UI of the 'Reset your Password' page	1. An existing account is required 2. reset password email is sent to the registered email address	1. Click on the reset password link available in the email 2. Check the UI of the Page (ER-1)	Not Applicable	1. Proper UI adhering to the UI checklist should be displayed for 'Reset your Password' page	P2			
TC_FP_015	(TS_004) Forgot Password	Validate resetting the password without providing the email address	1. Open the application URL and navigate to Login Page	1. Click on 'Forgotten Password' link from Login page 2. Don't enter anything into the 'E-Mail Address' field 3. Click on 'Continue' button (ER-1)	Not Applicable	1. A page level warning message with text - 'Warning: The E-mail Address was not found in our records!' should be displayed	P2			
TC_FP_016	(TS_004) Forgot Password	Verify Placeholder text is displayed in the 'E-Mail Address' field of 'Forgotten Password' page	1. Open the application URL and navigate to Login Page	1. Click on 'Forgotten Password' link from Login page 2. Check Placeholder text for 'E-Mail Address' field (ER-1)	Not Applicable	1. Proper Placeholder text is displayed inside the 'E-Mail Address' field of the 'Forgotten Password' page	P2			
TC_FP_017	(TS_004) Forgot Password	Validate 'E-Mail Address' field on the 'Forgotten Password' page is marked as mandatory	1. Open the application URL and navigate to Login Page	1. Click on 'Forgotten Password' link from Login page 2. Check the 'E-Mail Address' field (ER-1)	Not Applicable	1. 'E-Mail Address' field in the 'Forgotten Password' page should be marked as mandatory	P2			
TC_FP_018	(TS_004) Forgot Password	Validate entering invalid email address format into the 'E-Mail Address' field of 'Forgotten Password' page	1. Open the application URL and navigate to Login Page	1. Click on 'Forgotten Password' link from Login page 2. Enter any invalid email address format into the 'E-Mail Address' field - <Refer Test Data> 3. Click on 'Continue' button (ER-1)	Try all below invalid email address formats: 1) vaishnavi 2) vaishnavi@ 3) vaishnavi@gmail 4) vaishnavi@gmail.	1. Field level warning message informing the user to provide a valid email address format should be displayed	P2			
TC_FP_019	(TS_004) Forgot Password	Validate Back button on the 'Forgotten Password' page	1. Open the application URL and navigate to Login Page	1. Click on 'Forgotten Password' link from Login page 2. Click on 'Back' button (ER-1)	Not Applicable	1. User should be taken to 'Login' page	P2			
TC_FP_020	(TS_004) Forgot Password	Validate navigating to 'Forgotten Password' page from 'Right Column' options	1. Open the application URL and navigate to Login Page	1. Click on 'Forgotten Password' option from the 'Right Column' (ER-1)	Not Applicable	1. User should be navigated to 'Forgotten Password' page	P2			
TC_FP_021	(TS_004) Forgot Password	Validate Breadcrumb of the 'Forgotten Password' page	1. Open the application URL and navigate to Login Page	1. Click on 'Forgotten Password' link from Login page 2. Check the working of Breadcrumb (ER-1)	Not Applicable	1. A proper working Breadcrumb should be displayed on the 'Forgotten Password' page	P2			
TC_FP_022	(TS_004) Forgot Password	Validate the email address provided in the 'E-Mail Address' field of 'Login' page, need to be carry forwarded to the 'Forgotten Password' page	1. Open the application URL and navigate to Login Page	1. Enter email address into the 'E-Mail Address' field of the Login page 2. Click on 'Forgotten Password' link (ER-1)	Not Applicable	1. User should be taken to 'Forgotten Password' page and email address given in the Login page should be displayed in this page by default [Usability point of view]	P2			
TC_FP_023	(TS_004) Forgot Password	Validate the UI of the 'Forgotten Password' page	1. Open the application URL and navigate to Login Page	1. Click on 'Forgotten Password' link from Login page 2. Check the UI of the page (ER-1)	Not Applicable	1. Proper UI adhering to the UI checklist should be displayed for 'Forgotten Password' page	P2			
TC_FP_024	(TS_004) Forgot Password	Validate the password entered into the 'Password' and 'Confirm' fields of 'Reset your Password' page is toggled to hide its visibility	1. An existing account is required 2. reset password email is sent to the registered email address	1. Click on the reset password link available in the email 2. Enter any text into 'Password' and 'Confirm' fields on the 'Reset your Password' page (ER-1)	Not Applicable	1. Text entered into the 'Password' and 'Confirm' fields should be toggled to hide its visibility (i.e. * or . Symbols should be displayed)	P1			
TC_FP_025	(TS_004) Forgot Password	Validate the Password Reset functionality in all the supported environments	1. Open the application URL and navigate to Login Page	1. Click on 'Forgotten Password' link from Login page (ER-1)	Not Applicable	1. Logout functionality should work correctly in all the supported environments	P2			

Test Case ID	Test Scenario	Test Case Title	prerequisites	Test Steps	Test Data	Expected Result (ER)	Priority	Actual Result	Result	Comment
TC_SF_001	(TS_005) Search Functionality	Validate searching with an existing product name	1. Open the application URL in any supported browser	1. Enter any existing product name into the 'Search' text box field - <Refer Test Data> 2. Click on the button having search icon (ER-1)	Product Name: iMac	1. Searched product should be displayed in the Search Results page	P0			
TC_SF_002	(TS_005) Search Functionality	Validate searching with a non existing product name	1. Open the application URL in any supported browser	1. Enter non existing product name into the 'Search' text box field - <Refer Test Data> 2. Click on the button having search icon (ER-1)	Product Name: xyz	1. 'There is no product that matches the search criteria.' should be displayed in the Search Results page	P1			
TC_SF_003	(TS_005) Search Functionality	Validate searching without providing any product name	1. Open the application URL in any supported browser	1. Don't enter anything into the 'Search' text box field 2. Click on the button having search icon (ER-1)	Not Applicable	1. 'There is no product that matches the search criteria.' should be displayed in the Search Results page	P1			
TC_SF_004	(TS_005) Search Functionality	Validate searching for a product after login to the application	1. Open the application URL in any supported browser 2. Login to the application	1. Enter any existing product name into the 'Search' text box field - <Refer Test Data> 2. Click on the button having search icon (ER-1)	Product Name: iMac	1. Searched product should be displayed in the Search Results page	P0			
TC_SF_005	(TS_005) Search Functionality	Validate searching by providing a search criteria which results in multiple products	1. Open the application URL in any supported browser	1. Enter the search criteria in the 'Search' text box field which can result in multiple products - <Refer Test Data> 2. Click on the button having search icon (ER-1)	Product Name: Mac	1. More than one product should be displayed in the Search Results page	P1			
TC_SF_006	(TS_005) Search Functionality	Validate searching using 'Search Criteria' field	1. Open the application URL in any supported browser	1. Don't enter anything into the 'Search' text box field 2. Click on the button having search icon 3. Enter any existing product name into the 'Search Criteria' text box field - <Refer Test Data> 4. Click on 'Search' button (ER-1)	Product Name: iMac	1. Searched product should be displayed in the Search Results page	P1			
TC_SF_007	(TS_005) Search Functionality	Validate Search using the text from the product description	1. Open the application URL in any supported browser	1. Don't enter anything into the 'Search' text box field 2. Click on the button having search icon 3. Enter any text from the Product Description into the 'Search Criteria' text box field - <Refer Test Data> 4. Select 'Search in product descriptions' checkbox option 5. Click on 'Search' button (ER-1)	Text in Production Description of iMac Product: iLife	1. Product having the given text in its description should be displayed in the search results	P2			
TC_SF_008	(TS_005) Search Functionality	Validate all the fields in the Search functionality and Search page have placeholders	1. Open the application URL in any supported browser	1. Don't enter anything into the 'Search' text box field 2. Click on the button having search icon (ER-1)	Not Applicable	1. Proper placeholder text should be displayed in the below fields: - Search text box field - Search Criteria text box field	P2			
TC_SF_009	(TS_005) Search Functionality	Validate Search by selecting the category of product	1. Open the application URL in any supported browser	1. Don't enter anything into the 'Search' text box field 2. Click on the button having search icon 3. Enter any Product Name into the 'Search Criteria' text box field - <Refer Test Data> 4. Select the correct category of the given Product Name into 'Category' dropdown field - <Refer Test Data> 5. Click on 'Search' button (ER-1) 6. Select a wrong category in the 'Category' dropdown field - <Refer Test Data> 7. Click on 'Search' button (ER-2)	Product Name: iMac Correct Category Name: Mac Wrong Category Name: PC	1. Product should be successfully displayed in the search results. 2. 'There is no product that matches the search criteria.' should be displayed in the Search Results page	P2			
TC_SF_010	(TS_005) Search Functionality	Validate Search by selecting to search in subcategories	1. Open the application URL in any supported browser	1. Don't enter anything into the 'Search' text box field 2. Click on the button having search icon 3. Enter any Product Name into the 'Search Criteria' text box field - <Refer Test Data> 4. Select the Parent category of the given Product Name into 'Category' dropdown field - <Refer Test Data> 5. Click on 'Search' button (ER-1) 6. Select 'Search in subcategories' checkbox field 7. Click on 'Search' button (ER-2)	Product Name: iMac Parent Category Name: Desktops	1. 'There is no product that matches the search criteria.' should be displayed in the Search Results page 2. Searched product should be displayed in the search results	P2			
TC_SF_011	(TS_005) Search Functionality	Validate List and Grid views when only one product is displayed in the search results	1. Open the application URL in any supported browser	1. Enter any existing product name into the 'Search' text box field - <Refer Test Data> 2. Click on the button having search icon 3. Select 'List' option (ER-1) 4. Click on the Image of the product and Name of the product (ER-2) 5. Repeat Steps 1 to 2 and Select 'Grid' option (ER-3) 6. Click on the Image of the product and name of the Product (ER-4)	Product Name: iMac	1. Single product should be displayed in the List view without any problems and all the options (Add to Cart, Wish List and Compare Product) should work 2. User should be navigated to the Product Display Page of the product 3. Single product should be displayed in the Grid view without any problems and all the options (Add to Cart, Wish List and Compare Product) should work 4. User should be navigated to the Product Display Page of the product	P2			

Test Case ID	Test Scenario	Test Case Title	prerequisites	Test Steps	Test Data	Expected Result (ER)	Priority	Actual Result	Result	Comment
TC_SF_012	(TS_005) Search Functionality	Validate List and Grid views when multiple products are displayed in the search results	1. Open the application URL in any supported browser	1. Enter the search criteria in the 'Search' text box field which can result in multiple products - <Refer Test Data> 2. Click on the button having search icon (ER-1) 3. Select 'List' option (ER-2) 4. Select 'Grid' option (ER-3) 5. Click on the product image and product name for any of the displayed products (ER-4)	Search Criteria: Mac	1. More than one product should be displayed in the search results page 2. Multiple product should be displayed in the List view without any problem and all the options (Add to Cart, Wish List and Compare Product) should work 3. Multiple product should be displayed in the Grid view without any problem and all the options (Add to Cart, Wish List and Compare Product) should work 4. User should be able to navigate to Product Display Page of products by clicking on Images and Product Name	P2			
TC_SF_013	(TS_005) Search Functionality	Validate navigating to Product Compare page from Search Results page	1. Open the application URL in any supported browser	1. Enter any existing product name into the 'Search' text box field - <Refer Test Data> 2. Click on the button having search icon 3. Click on the 'Product Compare' link (ER-1)	Product Name: iMac	1. User should be navigated to the Product Compare page	P2			
TC_SF_014	(TS_005) Search Functionality	Validate user is able to sort the products displayed in the Search Results	1. Open the application URL in any supported browser	1. Enter the search criteria in the 'Search' text box field which can result in multiple products - <Refer Test Data> 2. Click on the button having search icon (ER-1) 3. Select several options from the 'Sort By' dropdown (ER-2)	Product Name: Mac	1. More than one product should be displayed in the search results page 2. Products are sorted according to the option selected in the 'Sort By' dropdown field	P2			
TC_SF_015	(TS_005) Search Functionality	Validate the user can select how many products can be displayed in the Search Results	1. Open the application URL in any supported browser	1. Enter the search criteria in the 'Search' text box field which can result in multiple products - <Refer Test Data> 2. Click on the button having search icon (ER-1) 3. Select the number of products to be displayed from the 'Show' dropdown (ER-2)	Product Name: Mac	1. More than one product should be displayed in the search results page 2. The selected number of products should be displayed in the current search page	P2			
TC_SF_016	(TS_005) Search Functionality	Validate 'Search' text box field and the button having 'Search' icon are displayed on all the page of the application	1. Open the application URL in any supported browser	1. Navigate to all the pages of the application (ER-1)	Not Applicable	1. 'Search' text box field and the button with 'Search' icon should be displayed on all the page of the application	P2
